SUMMARY

MERN Stack Developer with diverse and extensive experience focusing on semantic and standards compliance. Reliable, predictable, and persistent. Team oriented with excellent interpersonal communication skills. Motivated to combine the art of design with that of programming. Proven achievement in agile-based time managed projects from working in large teams to one-on-one client focused bespoke websites.
I believe the best design comes from establishing problems specific to a project and then solving them in the simplest way possible. Considered an innovative team player with a reputation for integrity and quality.
